Some key points about our String Instrument Rental/Purchase Program:

- * We deal only in string instruments. Our specialization allows us to provide superior service to you at a lower cost.
- * We lease only the finest European student instruments available.
- * All instruments are adjusted in-shop by a professional. Minor adjustments & repairs can be performed while you wait.
- * Our low cost maintenance policy protects you from any out of pocket expense. Our policy is inclusive, covering any problem including broken strings, bridges, open seams, loose fingerboards, etc...

Our equity program is second to none! It allows all of your rental payments to apply towards purchase of a new, used or step-up instrument. And your equity is never capped. As long as you continually rent, your equity is building - without any time limits. No chain store, superstore or general music store can match our program. Only a violin shop can provide the quality of service and inventory you will need. If you are considering another rental agency, check their policy closely. A few dollars saved in the beginning may end up being very costly in the end. Hope to see you soon!

Please call for store hours, directions & more information or just check our website!
